

INSTRUCTIONS FOR PRINTING:

Step 1: Print the Scanimation on paper.

Scanimations by LAMAR+NIK > Print on Paper

Step 2: Print the matching bar mask on a transparency sheet.

Scanimations by LAMAR+NIK > Print on Transparency

You can get printable plastic sheets at any office supply store.

Step 3: Move the overlay slowly up and down in front of the Scanimation and you should see the motion.

The overlay must be lined up precisely with the Scanimation.

Important info about printing scale: The transparency must be printed at the exact same print size scale as the Scanimation. Print at 100% scale if possible. If you reduce or enlarge anything, then you must reduce or enlarge both images when printing.

INSTRUCTIONS FOR COMPUTER:

Step 1: Import Scanimations and Transparencies into program.

Scanimations by LAMAR+NIK > Premiere, Photoshop, FCP, Etc.

Step 2: Place Transparency over matching Scanimation.

Transparency (PNG) > Scanimation (JPG)

Step 3: Move transparency overlay back and forth.
